STATE OF WASHINGTON
DEPARTMENT OF ECOLOGY

INSTRUCTIONS FOR ASSIGNMENT OF APPLICATION OR PERMIT TO APPROPRIATE
OR STORE WATER

A NON-REFUNDABLE \$50.00 FEE MUST ACCOMPANY THE FILING OF THIS
ASSIGNMENT.

MAKE CHECKS OR MONEY ORDERS PAYABLE TO THE DEPARTMENT OF ECOLOGY.

Introduction:

Use this form when the ownership of a water right application or permit needs to be transferred from the current owner to a new owner of additional owners. A water right application requests that a proposed beneficial water use be authorized, while a permit grants authority to develop a beneficial water use. A water right is established if water is put to beneficial water use(s) as authorized by a permit. A water right, once established, attaches to the land upon which it is legally used. It is not necessary to assign a water right certificate or a water right claim. It is required by statute that an assignment be filed for applications and permits (90.03.310 RCW).

To remain a viable application or permit, the person(s) owning it must maintain the ability to develop a water use(s) upon the property identified as the place of water use. Normally only the property owner, a lessee, or a legally recognized water system has authority to develop a water use upon a parcel of land.

An assignment of an application or permit is not valid until filed with the Department of Ecology. An assignment is made whenever it is desired to transfer all or part of the responsibility and/or interest in an application or a permit to appropriate or store water. Normally an assignment is made if the application/permit holder(s) sells the place water is to be used to another person.

The person(s) receiving the application/permit may be required to provide additional information prior to acceptance of the assignment. For example, information may be requested showing that the assignment is in compliance with the provisions of the Family Farm Water Act, Chapter 90.66 RCW.

This assignment may result in a real estate excise tax liability for the seller. The Department of Ecology notifies the Department of Revenue of potential taxable water right related actions. Please contact the state Department of Revenue for further information. The phone number is (360) 570-3265. The mailing address is: Department of Revenue, Real Estate Excise Tax, PO Box 47477, Olympia, WA 98504-7477. You may also contact them through the internet at: <http://dor.wa.gov> or e-mail REETSP@DOR.WA.GOV

Instructions: Complete the Assignment Form in ink.

Part 1. The name(s) of the holder of the application or permit must be identified. Secondly, the application/permit number given by the Department of Ecology must be identified. Identify the water source associated with the application/permit. The water source is the river stream, spring, well or other features from which water is obtained. Identify the name(s) of the person(s) being assigned the application or permit. Indicated whether the entire application/permit or only a portion is being assigned. If only a portion is being assigned, you must prepare an attachment fully describing what water quantities, purpose(s) of use, and acreage are being assigned. An attachment may be used to complete any information required by this form.

Part 2. Provide a reason why the assignment is being made. Understanding the purpose of the assignment will assist us in evaluating whether an assignment is appropriate and help us to provide advice to the new application/permit holder. For example, you could enter "sale of property" if that is the case.

Part 3. The place of use to be effected by the assignment must be identified. Providing the specific place of use information will eliminate errors that could be made in the administration of the application/permit.

Part 4. Indicate whether or not the assignment will have impact upon the timing of the development schedule as stated within the application/permit. If there will be any delay, include a statement proposing a new development schedule.

Part 5. The holder(s) of the application/permit and the person(s) to which it is being assigned must provide their signatures and addresses. The person(s) being assigned the application/permit must also provide a telephone number, if available. The addresses provided on the assignment form will be assumed to supercede any addresses already contained within the application/permit record. The formal place of contact will be considered the address and telephone number provided of the person(s) being assigned the application/permit upon acceptance of the assignment.

Notary Signature Block: The signature of the current holder of the application/permit must be notarized.

Fournier, Richard Raymond

Sunday, 01 Apr 2007 South Whidbey Record South Whidbey WA

Richard Raymond "Dick" Fournier passed away April 1, 2007. He died peacefully after complications from surgery.

Born on July 11, 1929, Richard was a longtime Freeland resident from the 1930s to the 1980s. He operated a herring trap in Holmes Harbor with his father in the 1950s-'60s, and was a home builder/cabinet maker

in the 1960s and '70s.

Richard married Dorothy Ann Anderson in 1953, she died of cancer in 1974.

He built and operated the Holmes Harbor Trailer Park in the 1960s through the 1980s.

Richard also built a fishing boat in his backyard, finishing the project in 1980. He moved to Port Angeles and built his final home in the mid-1980s.

He also earned the volunteer of the year award in 1997 for his work with the fisheries on the Fish Enhancement Program.

He married Mary Ann Meier in 1975, still surviving. Richard is also survived by his four children: Ray, Alice (husband Nils), Larry (wife Kat), Jerry (wife Laurie); sister Dorothy Touchy; and several grandchildren and great-grandchildren.

Sheri,

Please find enclosed the completed Assignment of Application for the property we recently purchased. I have attached a copy of the original application, the sales information on the property, and the currently Clallam County tax records. The original applicant has not signed the Application as he is diseased. Information regarding this is also attached. The application fee of \$50.00 is also enclosed.

I hope that all is in order. Please contact me if you need additional information. I can be reached at my work phone, 512 794-9700 or my cell phone 512 771-3636.

Thank you for your assistance with this.

Yours truly,

Joel Kolbensvik

Re: Water Right Application No. S2-30200

Dear Mr. Kolbensvik:

Thank you for returning the Dungeness Water Right Application Status Response form. We received the form on March 22, 2008. You indicated you now own the property associated with this application.

Please find enclosed an Assignment Form to update our records to reflect the new ownership of the property. Once the water right application has been assigned future correspondence for the application above will be sent to you.

If you have any questions, please contact Sheri Carroll at 360-407-0240.

Sincerely,

Sheri Carroll

Re: Water Right Application No. S2-30200

Hello,

I'm writing to ask for your help on a project. A number of people from Sequim and Port Angeles who helped develop the Elwha-Dungeness Watershed Plan are working on accomplishing the goals of the plan. As part of this, we need to estimate future water demand for the Dungeness watershed. A piece of this estimate will be based on the applications for water rights currently on file with the Department of Ecology.

You are receiving this letter with the return envelope and form because you have an application pending with Ecology for water from the Dungeness area.

Because a number of things may have changed since you filed your application, we'd like to hear from you. Plans may be different, property may have been sold, or you might have acquired water through other means.

Is your application still accurate? Your answer will help us more realistically estimate the amount of water that's being requested.

Action required on the enclosed form:

Please indicate if you still need water for your project.

If yes, your application will remain on file with Ecology. **OR**

If you do not need the water, please check that box and I can pass the information to staff in Ecology's Water Resources Program. **AND**

If you no longer own the property, please provide contact information for the new owner.

PLEASE NOTE

Ecology is not taking action on pending applications for water rights at this time.

Action will be taken after a Dungeness instream flow and water management rule has been adopted and enough information is available to make decisions.

The Dungeness rule is currently being discussed, and formal review of a draft rule is planned for late this summer. A public workshop is being held at the John Wayne marina in Sequim, from 4 to 7 p.m. on March 26th. We'll be talking about elements of the rule and options for water management. There will also be an announcement in the Sequim Gazette.

Ecology contact information

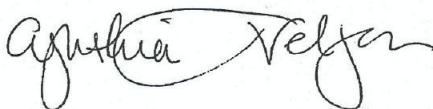

If you have questions about this request or are interested in the discussions on water supply and rule development, you can contact me at the Shorelands and Environmental Assistance Program, Southwest Regional Office of Ecology. My phone number is (360) 407-0276.

You can also call Sarah Ferguson of the Water Resources Program, who is working on the Dungeness rule, at (360) 407-6780.

Information on Dungeness rulemaking is on-line at:
<http://www.ecy.wa.gov/programs/wr/instream-flows/dungeness/html>.

General information regarding watershed planning is available on Ecology's website at:
<http://www.ecy.wa.gov/watershed/index.html>.

Thank you for your time and attention.

Cynthia Nelson
Watershed Lead for Elwha Dungeness Watershed Planning
Shorelands and Environmental Assistance Program, Southwest Region

July 15, 2004

Richard Fournier
283 Fern Road
Port Angeles WA 98362-9270

Dear Mr. Fournier:

Re: Water Right Application No. S2-30200

This letter is to acknowledge that the Department of Ecology received your water right application. We have assigned your application the number indicated above. Please include this number in future correspondence regarding your application.

When we begin actively evaluating applications in your area, we will prepare a public notice and send it to you with publication instructions. It will be sometime before we are able to begin working in your area.

The availability of water in Washington State is a serious problem. Much of the water in our state has already been appropriated. The competition for water has escalated with our state's increasing population, conflicting water policy issues, and grave declines in salmon and other fish populations. With the many demands on the state's water resources, a favorable permit decision is not always possible. You may want to consider purchasing all or part of an existing water right.

Please be sure to notify Ecology of changes such as address, property ownership, or variations in your proposed water use plans. If you would like further information on your application, please contact our office at (360) 407-6300.

Sincerely,

A handwritten signature in cursive script that reads "Teresa Hanson".
